Corning Incorporated Life Sciences Registered ISO 9001:2008		Product Description
Catalog Number:	356484	
Product Description:	Corning® B	Biocoat [™] 25cm ² canted neck flask, collagen I coated, with filter vent cap
Component Materials : Collagen I Flask Cap Filter	 Rat Tail Tend Polystyrene Polyethylene 	don e with color concentrate apore acrylic copolymer membrane

0.2µm Versapore acrylic copolymer membrane

Bioburden:

This lot has been tested and found negative for Bacteria and Fungi.

Cell Attachment and Growth Characteristics:

This lot has been tested for the attribute of Cell Attachment and Growth utilizing human HT1080 cells, an attachment-dependent mammalian cell line in a serum free media.

Collagen I:

The dishes are coated with Collagen I which is a rat tail collagen, coated via a proprietary method.

Storage Conditions:

For optimal performance, the unopened product should be stored in a dry place at 4-30 degrees C (Do not freeze).

Handling:

The product is ready to use and does not require washing of the coated surface prior to use.

Performance Testing:

Each manufacturing lot is sampled and tested in accordance with Standard Operating Procedures. Visual Attributes: Visual and microscopic examination of the product. Bacteria & Fungi Free : Turbidity test Inspection for seal and barrier integrity, accurate labeling and correct Packaging: product configuration.

Lot Number Designation:

8 Digit Lot Number: First 3 digits - Julian Date, start of manufacturing; Next 2 digits - Year of manufacture; Last 3 digits - Batch identification.

Rev No: 1
