V-Lab96

Viasure Real Time PCR platform

Open platform for *in vitro* diagnostics. Allows to analyze 96 samples simultaneously for qualitative and quantitative PCR.

HULL

Advanced Real Time PCR System with 96-well block for scalling up research and high sample throughput in diagnostic lab applications

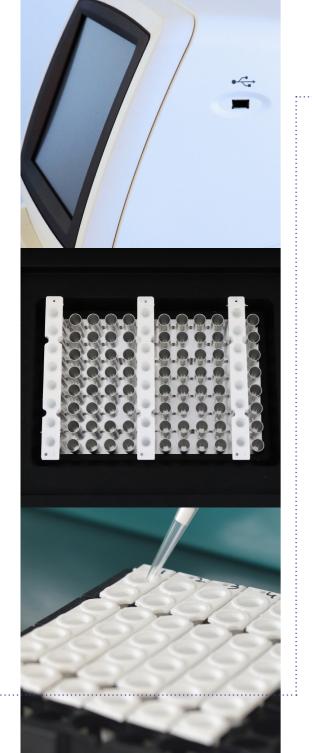

The dedicated **VIASURE V-Lab96 Thermocycler** for *in vitro* diagnostics allows qualitative and quantitative analysis of 96 samples simultaneously.

The combination of a fast and uniform heating, high sensitivity optical system and an easy-to-use software provides a great advantage for users.

VIASURE V-Lab96 software screen.

- Improved optical system for high specificity and sensitive detection.
- Reduced operating time.
- High sample throughput in diagnostic lab applications.
- **Power-off protection.** Avoid the loss of experimental data and waste of reagents due to abrupt power-off.
- Analysis performed in a closed test tube to minimize possible contamination of further experiments.
- Data registering and accounting in electronic format for LIS conexion.
- Integrated 10.4" TouchScreen.

Technical features

Thermal block

96 test wells (8 x 12) PELTIER

0.2-ml test tubes (high profile tubes) for PCR and transparent optical caps (individual, in strips or 8 pieces each)

Range of thermal block temperature control	0.0 - 100.0°C						
Resolution of temperature setting	0.1°C						
Accuracy of temperature maintenance	<u>+</u> 0.1°C						
Variability of thermal block temperature, not more than	<u>+</u> 0.1°C						
Average heating rate of the thermal block	4.5°C/s						
Average cooling rate of the thermal block	2.8°C/s						
"Hot cover" temperature	RT-110°C						
Optical system							
Excitation source Light	4 LED's light sources						
Detector	Photodiodes						
Detection wavelength/Dyes: 465/510 (FAM) 527/563 (H	EX) 580/616 (ROX) 632/664 (Cy5)						
Performance and software							
Dynamic Range	1-10 ¹⁰ copies						
Repeatability	C† CV≤0.5						
Power consumption	900VA						
Computer interface	LAN/USB2.0						
LIS connection CSV, Excel, TXT format dat	a output open port for LIS connection						
Dimensions	475mm(L) x 355mm(W) x 484mm(H)						
Weight	30kg						

Compatible with all VIASURE Real Time PCR Detection Kits.

Robust & Reliable equipment.

Qualitative & Quantitative data analysis.

Automatic interpretation and analysis of results.
