

pH 3-in-1 Electrode 9147BN

- Built in temperature sensor for ATC
- Non-refillable gel pH
- Rugged body with BNC connector & 2.5 mm ATC plug

9147BN

Lot Code:

Thermo
SCIENTIFIC

OPERATION INSTRUCTIONS

Thank you for selecting this pH electrode.
pH range: 0-14. Temp: 0-50 °C.
Dims (mm): 141 L x 12 dia.

BEFORE YOU BEGIN: Remove storage bottle (see picture at right). To condition pH electrode, immerse it in fresh electrode storage solution or pH 4 or 7 buffer for 10-20 minutes before use.

CALIBRATION: Calibrate according to meter instruction. ALWAYS use fresh calibration solution. See recommended solution below.

DURING MEASUREMENT: To avoid contamination, rinse electrode with deionized water before and between measurement. Stir sample to ensure homogeneous mixture.

STORAGE: To store electrode, fill storage bottle with fresh electrode solution. Replace storage bottle over end of electrode.

ACCESSORIES: 910001 pH Storage Solution; 900020 pH Cleaning Solution Sample Kit; 910104 pH 4.01 buffer (475 mL); 910107 pH 7.00 buffer (475 mL); 910110 pH 10.01 buffer (475 mL).

WARRANTY: This electrode is warranted for a period of 6 months from the date of purchase. If replacement is necessary within the 6 month period and the electrode issue is not the result of abuse or misuse, please contact your local distributor.

RETURN OF ITEM: Authorization must be obtained before returning items for any reason. Note: Prices and design are subject to change without notice.
