Classic style for timeless
dependability and durability

you can handle
anything

Thermo
SCIENTIFIC

Today's laboratories need a refined, dependable approach to liquid handling to meet the ever-increasing demands of daily research. The Thermo Scientific Finn timer pipette combines robust durability for consistent performance year after year. The lightweight design and finger rest reduce hand fatigue to make pipetting comfortable. The Finn timer[®] Digital pipette is available in single, and multichannel models; 8- and 12-channels for 96-well applications and 16-channels for 384-well applications.

Proven Thermo Scientific technologies

- Autoclave repeatedly for versatile use in sterile lab environments
- Durable and reliable in a variety of chemical applications
- Accurately pipette at low-volumes with the enhanced super blow-out system
- Clearly read selected volumes while securing plunger into place to avoid volume drift
- Release tips using minimal effort with the geared tip ejector

Finn timer Digital Variable Volume Single Channel Pipettes

Complete Pipetting Systems

Digital pipettes have been designed for use with Finntips to form an optimized pipetting system. At a glance, easily select the correct volume pipette and tip with the coordinating color-code design. Together they provide an exceptional value, delivering improved ergonomics and quality results. The Digital pipettes and Finntips are CE-marked.*

Finntip Pipette Tips

Cat. No.	Description	Packaging
Finntip 10, 0.2-10 µl, 3.2 cm, Pink
