

Silencer™ Select Human DNA Damage Response siRNA Library

Catalog Number A30089

Pub. No. 100038157 Rev. A

 **WARNING!** Read the Safety Data Sheets (SDSs) and follow the handling instructions. Wear appropriate protective eyewear, clothing, and gloves. Safety Data Sheets (SDSs) are available from thermofisher.com/support.

Product description

The Invitrogen™ Silencer™ Select Human DNA Damage Response siRNA Library contains Silencer™ Select pre-designed, and when available, validated siRNAs.

- The siRNAs target human genes expressing surveillance proteins that monitor DNA integrity and can activate cell cycle checkpoints and DNA repair pathways in response to DNA damage.
- For handling and usage guidelines, refer to *Silencer™ Select Libraries: Transfection Protocol* (Pub. no. MAN0014605).

Library characteristics

Characteristic	Description
Lot number	<input type="text" value="XXXXXXXX"/>
Total amount of each siRNA	0.25 nmol of each siRNA
siRNA aliquot description	1 × 0.25 nmol
Library content	1746 unique siRNAs targeting transcripts from each of 582 genes. Total of 21 × 96-well plates (Axygen PCR96FS; www.axxygen.com). <ul style="list-style-type: none"> • 18 plates with 88 siRNAs each. • 3 plates with 54 siRNAs each. A few siRNAs target more than one gene's transcript(s), due to gene families with highly homologous members or predicted genes with high homology to verified genes. Refer to the accompanying CD for sequence information and additional siRNA details.
Library format	Individual siRNAs
Empty wells per plate	Last column empty
Plate layout	siRNAs to same target in separate plates in same location
siRNA purity	Standard
siRNA format	Annealed
Appearance	Powder
Storage	Store at or below -20°C. Do not store in a frost-free freezer. (Dried oligonucleotides are shipped at ambient temperature.)
Shelf life	1 year, when stored at or below -20°C.

Quality control

Identity: The mass of a sample of each single-stranded RNA oligonucleotide is analyzed using MALDI-TOF mass spectrometry and compared to the calculated mass.

Annealing: A sample of the annealed siRNA is analyzed by nondenaturing gel electrophoresis.

Limited product warranty

Life Technologies Corporation and/or its affiliate(s) warrant their products as set forth in the Life Technologies' General Terms and Conditions of Sale found on Life Technologies' website at www.thermofisher.com/us/en/home/global/terms-and-conditions.html. If you have any questions, please contact Life Technologies at www.thermofisher.com/support.
